

Connectivity Solutions

SanDisk ImageMate® Readers/Writers

The ImageMate CompactFlash, ImageMate 5-in-1, and ImageMate 12-in-1 Readers/Writers offer quick and easy transfer of images and data from your memory card to your computer with the touch of a button. Each easy-to-use Hi-Speed USB 2.0 ImageMate Reader/Writer is backward compatible with USB 1.1 ports, and includes Adobe Photoshop Album 2.0 Starter Edition for organizing and viewing digital images.

SanDisk MobileMate™ Readers/Writers

Easily transfer files between your mobile phone, digital camera or PDA and a computer with the SanDisk MobileMate Readers/Writers. Plug-and-play portability means you will always have access to important data. The MobileMate Readers/Writers feature a Hi-Speed USB 2.0 port (backward compatible with USB 1.1) for fast and easy data transfer. Available in two versions.

SanDisk Cruiser® USB Flash Drives

The SanDisk Cruiser family of Hi-Speed USB 2.0 flash drives allows storage and transport of documents, pictures, presentations, music and video clips quickly and easily. The

Cruzer Titanium combines speed, strength, and style in a rugged, Liquidmetal® case. Both Cruiser Titanium and Cruiser Micro include skype™, U3™ software and feature a retractable USB connector.

The Cruiser Profile is the ultimate in portable data security, storing all your passwords and allowing access only by you, with the swipe of your finger. The Cruiser Freedom is a digital backpack designed especially for students. It is capable of holding multiple textbooks, novels, and educational tools and aids.

Sansa® MP3 Players

SanDisk Sansa™ MP3 Players

Play your digital music with the SanDisk line of small, stylish and highly portable MP3 players. Featuring a large color screen, the sleek new design of the SanDisk Sansa e200 series offers everything you need to enjoy your music, photos and videos. Memory Cards and Devices

SanDisk CompactFlash®

SanDisk CompactFlash cards allow you to carry images, music, voice and text. They're perfect for digital cameras, digital music players, digital camcorders, handheld PCs and voice recorders. The cards are fully compatible with all CompactFlash-compliant devices.

SanDisk SD™

The SanDisk Secure Digital (SD) memory card is ideal for digital cameras, digital music players, smart phones, handheld PCs and more. SanDisk SD cards provide high quality, optimal performance, and are fully compatible with all SD-compliant devices. The SD card has security features to protect data, including a write-protect switch to prevent accidental data loss.

SanDisk announces our newest format and capacity to the SD card family: The SD High Capacity (SDHC) 4GB flash card is perfect for storing digital content such as high-quality photos, videos, and music. SanDisk SDHC 4GB card ships with the new MicroMate™ SD/SDHC compatible, high-speed USB 2.0 Reader, to ensure compatibility when downloading digital content to your computer.

SanDisk Memory Stick PRO™ and Memory Stick PRO Duo™

SanDisk Memory Stick PRO and Memory Stick PRO Duo cards are the ideal solutions for capturing and playing back DVD-quality video in real time, or store CD-quality music, high-resolution digital images, and more! Both cards provide high performance, data transfer, large capacities and advanced security for your Memory Stick PRO-optimized devices. MS PRO Duo cards are compatible with all MS PRO devices with the use of the adapter (included).

SanDisk xD-Picture Card™

The SanDisk xD-Picture Card provides high capacity in one of the smallest memory formats available today. Featuring rapid data transfer speeds, it is ultra compact for the most portable devices. The SanDisk xD-Picture Card is fully compatible with all xD-compliant devices.

SanDisk Shoot & Store™ Cards

SanDisk Shoot & Store memory cards let you take pictures of life's favorite moments, share them with others and then save them indefinitely on the card or drive, or transfer them to your computer. Choose from CompactFlash, SD, xD-Picture Card, or Memory Stick PRO Duo reusable memory cards, or the Cruzer Mini USB flash drive.

SanDisk Gaming Products

Memory Stick PRO Duo and SD game cards turn your handheld entertainment systems into fully loaded multimedia units. Save your game data, view your photos, watch your favorite videos, and store other downloadable content. The SanDisk Cruzer Crossfire™ USB Flash Drive is preloaded with exclusive gaming content designed to enhance your gaming experience. Save game data and any other digital media content. The Cruzer Crossfire is compatible with any device with a USB port (PC, Xbox 360®, and much more).

SanDisk Mobile Cards

SanDisk offers an extensive line of high-performance and high-quality removable memory cards supporting expansion slots in a wide variety of mobile phones. SanDisk mobile cards increase mobile phone memory capacity to enhance your on-the-go lifestyle by storing more music, videos, and photos. SanDisk mobile cards also include adapters, making it easier to transfer files between your computer and your mobile phone. Check mobile phone manufacturer for compatibility information.

SanDisk Ultra® II Mobile

The SanDisk Ultra II Mobile line of cards offers premium performance and premium quality for enthusiasts wanting faster data transfer speeds along with an extended limited warranty. The SanDisk Ultra II Mobile line includes miniSD, microSD, and Memory Stick Pro Duo memory cards.

SanDisk High-Performance Products

SanDisk Ultra® II

SanDisk has a complete line of high-end products for photo enthusiasts and professional photographers. SanDisk Ultra II CompactFlash, SanDisk Ultra II SD, and SanDisk Ultra II Memory Stick PRO Duo are designed for advanced digital photographers who use high-end digital cameras and camcorders. The SanDisk Ultra II line also features the SanDisk Ultra II SD PLUS, an innovative SD flash memory card with built-in USB 2.0 connectivity.

SanDisk Extreme® III

SanDisk Extreme® III CompactFlash, SanDisk Extreme III SD, and SanDisk Extreme III Memory Stick PRO Duo with ESP Technology are fast, durable, reliable and rugged cards.

Extreme III CompactFlash and Extreme III SD cards have minimum write and read speeds of 20MB* per second (MB/sec)**. Memory Stick PRO Duo cards have minimum write and read speeds of 18MB/sec. Extreme III cards are available in capacities from 1GB to 8GB (depending on form factor). Choose the format with the capacity that best meets your specific requirements.

For faster card-to-PC transfer, the Extreme III USB 2.0 Reader is available. The reader supports CompactFlash, SD, Memory Stick PRO Duo and all Extreme III products.

SanDisk Extreme® IV

The SanDisk Extreme IV line of CompactFlash digital film cards is for professional photographers who need the absolute highest performance and maximum reliability. Available in capacities from 2GB to 8GB, these cards deliver minimum read and write speeds of 40MB/sec. For faster card-to-PC transfer, the SanDisk Extreme FireWire Reader is also available.

**1 megabyte (MB) = 1,000,000 bytes; 1 gigabyte (GB) = 1,000,000,000 bytes
Some of the listed capacity is used for formatting and other functions, and thus is not available for data storage.

*Performance based on SanDisk internal testing.
