Titanium Tweezer AA

▪ TITANIUM TWEEZER AA

\$27.80

Pattern AA tweezer is for general assembly. Very strong, straight, precise tips. Overall length 4 3/4". Overall length 5".

Titanium tweezers are advantageous for use in the electronics and science industries due to lack of the shedding of particles-like the stainless steel tweezers. Anytime an abrasive substance is handled and microscopic particles are a detriment, titanium is a good choice. Titanium is non-magnetic therefore is extremely useful when handling magnetic materials, or when working in a magnetic field.

Model: 18013TT

Shipping Weight: 0.05lbs
