## Titanium Tweezer Style 2

**▪ TITANIUM TWEEZER STYLE 2****\$27.80**

Tapered point for bending and handling of small wires and parts. Overall length 4 3/4". Titanium tweezers are advantageous for use in the electronics and science industries due to lack of the shedding of particles-like the stainless steel tweezers. Anytime an abrasive substance is handled and microscopic particles are a detriment, titanium is a good choice. Titanium is non-magnetic therefore is extremely useful when handling magnetic materials, or when working in a magnetic field.

Model: 18046TT
