

MiniVue Camera

World's first digital color camera for microscopy and video inspection applications with a built in 2" LCD Screen and instant image capture feature with the built in SD Card. A PC is not required for image capture or image viewing, saving you bench space and money, although a 2.0 USB outlet is provided if you do need to connect to a PC.

Features:-

- 3.1 Mega Pixel Camera
- Built in High Resolution 2" LCD Screen
- Full Digital Signal Processing
- Capture Images and Video to the built in SD Card. Transfer to a PC at your convenience
- Connect via USB to a PC or a Printer
- User friendly user interface
- Many stand alone features on camera
- Cross Hair Feature for location and measurement
- TV Out allows for connecting a larger LCD monitor for detailed viewing
- Wireless and wired USB Shutter control
