Use & Care Guide For Insulated Tools:

Store tools to minimize risk of damage to insulation, always wear approved eye protection, Inspect insulation prior to each use of any insulated tool. Use insulated tools where the ambient temperature is between -20 to +70° C. Have a qualified safety technician visually inspect insulation on tools annually for safe use.

WARNING!

Insulated Tools are intended to provide protection against accidental contact with charged energized circuits. For maximum safety we recommend de-energizing all circuits whenever possible before starting work on electrical apparatus or conductors. Always visually inspect insulation on tools before use, do not use tools if insulation shows signs of wear or damage to the insulated areas of the tool. Wear appropriate eye protection when using hand tools. Use NFPA70E certified insulated protective outer wear when appropriate.

Wiha Insulated Pliers & Cutters Index

	Description	Page
	Insulated Combination Pliers	105
	Insulated Diagonal Cutters Heavy Duty	105
	Insulated Diagonal Cutters High Leverage	106
	Insulated Cable Cutters	106
	Insulated Bent Nose Pliers	107
	Insulated Long Nose Pliers	107
	Insulated Round Nose Pliers	107
	Insulated Stripping Pliers	107
	Insulated Tool Sets	92-94
