A cross-sectional diagram of a sleeve terminal assembly. On the left, a hatched area represents the **METAL PANEL**. A **TIP SPRING** is shown as a curved line with an arrow pointing upwards. A **SHUNT SPRING** is shown as a curved line with an arrow pointing downwards. A **SLEEVE TERMINAL INSULATED FROM PANEL** is shown as a rectangular block with three circular terminals on its right side. An arrow points from the text label to the sleeve terminal block.
